

CYRA 75% Rule

The 75% rule will be conducted in the following manor.

Any participant will be eligible to take the top 75% of their best rodeos into finals. The participant will not be eligible to use any rodeos until the membership is paid in full. With this being said if a member pays their membership before the first or at the first scheduled CYRA sanctioned event they will be eligible to take 75% of the total rodeos to finals. If a member doesn't become a member until the middle of the season then they will take only the remaining rodeos from date of membership to finals. Finals ranking will be based on the top 75% of member rodeos. The finals will not be included in the 75% of total rodeos. Any participant that competes in rodeos prior to membership will be treated as a non-member and points will not count they will only earn money. Any participant that becomes a member during the season will not be allowed to use rodeos attended prior to membership being paid for points.
